

**City of Lloydminster
Information Report (IR)**

Subject Matter: Public Transportation Master Plan – Project Update

Department: Operations

Presented By: James Rogers

GPC Meeting Date: April 22, 2024

Topic: To provide the Committee with an update associated with the Public Transportation Master Plan Project.

Background: The Project Team has concluded the first and second rounds of community engagement. The data was compiled for the purpose of understanding public transportation needs and opportunities within the City of Lloydminster and to determine the feasibility of introducing a service of this nature. The data presented here will become the basis for developing the Public Transportation Master Plan.

The Project Team is finalizing the master plan document in preparation for presentation and acceptance at a future Regular Council Meeting.

Objective: The intent of the Public Transportation Master Plan project is to review the City's current public transportation needs and formulate a master plan document that the City of Lloydminster may refer to when assessing the need for public transportation, forecasting a budget for implementing such infrastructure related to public transportation, and considering routing/service options.

Options:

1. That the Committee accept this report as information.
2. That the Committee request more information and that the item be brought forward to a future Governance & Priorities Committee meeting.

Alignment with Strategic Plan: This item is in alignment with the following strategic area: Managing our Environment and Infrastructure. The Public Transportation Master Plan assesses the possibility of a transit service while providing the foundation for potential infrastructure that may be needed as a way to support economic development, resilience in the community, as well as an opportunity to decrease carbon emissions by offering another means of travel within the City of Lloydminster.

Governance Implications: N/A

Budget/Financial Implications: N/A
